**We are pleased to announce our support for the local charity**

**VISION HOUSE**

Here's a little information about them as listed on their website, <http://vision-house.org>

*Vision House was incorporated as a nonprofit 501 (c) (3) in 1990 to provide safe and confidential transitional housing and services for homeless single mothers and their children, and separately for homeless single men recovering from drug and alcohol addiction.*

*Over 700 men, women and children have benefited from our assistance. Our goal is to coordinate successful re-integration of residents into the community through adequate housing, counseling, child care, food, clothing, education and vocational training, life skills development, employment, medical and dental care.*

*Vision House is committed to serving a target population who is homeless and whose income falls below 30% of the median income. Residents are allowed and encouraged to stay in our homes for 18 months to two years. Residents may stay longer when they pursue a four-year degree.*

Cashmere is a financial sponsor of Vision House's NoHomelessKids Luncheon fundraiser for the second year.

If you'd like more information about Vision House, or would like to make a personal donation, please visit the website shown above.

**Cashmere is proud that we are able to support our local communities thanks to all of you! Keep up the good work!**
